INTRODUCTION

SCDC Industries is self-supporting, and serves the Department of Corrections and the State of South Carolina by employing and training inmates. The training oriented work allows the inmates to return to society with skills that will enable them to become useful and productive citizens. In pursuit of this objective, the cost of incarceration is offset through inmate wages, with quality products and services provided to qualified businesses and organizations at substantial savings. Three programs operate within SCDC Industries: Traditional, Service and Prison Industries Enhancement (PIE). Industries serves over 500 client organizations.

A large percentage of our inmate population enters Corrections lacking the education and work skills necessary to excel in today's society. SCDC Industries' programs provide meaningful skills to inmates, allowing them to become productive citizens after their release.

Industries is certified by the Bureau of Federal Justice to enter into contracts with private sector companies to manufacture products for interstate shipment under the Prison Industries Enhancement (PIE) program. Inmates working in the PIE program receive prevailing wages for their labor. As with any job, federal and state taxes are deducted from their checks along with deductions for the inmates' room and board and the state Victim Compensation Fund. Additional deductions are made for family support and the remaining money is placed in a trust for the inmate to receive upon release.

Choosing to purchase goods and services from Industries is an investment in your state and community. By supporting Industries, you are promoting education, job skills training, good moral values and work ethics. You are also strengthening South Carolina, our state government and private business, to the benefit of all South Carolina citizens.

MISSION

Provide occupational and personal development training for incarcerated offenders
Reduce recidivism rates
Provide quality products and services
Support a strong South Carolina economy while serving its citizens
