MEDIA TYPES

KNOWING WHAT YOU NEED

With so many types of materials to choose from, it can be tough to know what is right for your specific job. Below is a breakdown of a few commonly used materials and their applications.

ADHESIVE VINYL

- Most vinyls come with some form of adhesive backing but the type of adhesive can vary depending on the application
- Can be removable or permanent
- Customizable in size and shape
- Both indoor and outdoor materials available
- Used commonly for vehicle wraps, wall murals, decals and signage

WINDOW GRAPHICS

- Perforated Window Vinyl prevents people from seeing in while you can still see out
- Provides a small amount of UV protection
- Used for building and vehicle windows

WALL GRAPHICS

- Wall graphics can be removed without damaging the drywall
- There are a variety of vinyls available for different textured surfaces
